“People want to look their best, and having youthful, healthy skin is a common goal.”

—Dr. Iris Gin

Every individual has unique and distinct skin care needs. Dr. Iris Gin, founder of the Kalia Dermatology and Laser Center, recognizes this and is dedicated to providing her patients with state-of-the-art treatments designed to meet their specific skin care requirements. “In today’s world, people want to look their best, and having youthful, healthy skin is a common goal,” she says.

Dr. Gin is one of the select physicians board-certified in dermatology with expertise in cosmetic dermatology. Her services include laser surgery, medical dermatology and medical aesthetics. Using the latest technologies and treatments, she specializes in non-invasive skin-rejuvenating procedures, including Botox, Restylane, and collagen injections. Administering Botox and dermal fillers is an art form, and no two physicians have the same technique. Dr. Gin has been treating patients with Botox for the past ten years, and has trained other physicians in the art of administering Botox and Restylane. She adds, “the right combination of Botox, fillers, and laser treatments can make you look five to ten years younger.”

Kalia clients enjoy the most advanced skin care treatments in a quiet, relaxing, spa-like atmosphere. Dr. Gin and her staff strive to combine personalized care and the most advanced dermatologic treatments on a person-to-person, case-by-case basis. It’s important to the staff that their patients feel relaxed and comfortable every time they walk through Kalia’s doors.

Dr. Gin’s new, 3,200-square-foot medical facility in Los Gatos is one of the most technologically advanced skin care institutes in the state, with the latest in laser technology and aesthetic services, as well as a multifaceted and remarkably secure electronic health record system.

The staff at Kalia Dermatology and Laser Center understand that you want to look your best, and they are dedicated to helping you reach that goal. For a younger, healthier, more vibrant-looking you, contact Dr. Gin and her staff to schedule a consultation.
