

Dr. Iris Gin is a board-certified dermatologist and dermatologic surgeon who has served the South Bay since 1999, and who has been a leader in dermatology for the past decade. Dr. Gin specializes in non-invasive cosmetic dermatology procedures that have minimal downtime and complement her patients' active lifestyles. Dr. Gin's skin rejuvenation procedures depart from more traditional approaches. By using her unique combination of Botox, fillers, lasers, and skin tightening treatments, "the face can easily appear years younger and postpone the need for more invasive surgery," Dr. Gin says.

As a board-certified dermatologist, Dr. Gin is able to go beyond simply offering cosmetic procedures; she is also able to treat medical skin conditions that also affect her patients' appearance and skin health, such as acne, age spots, and pre-cancerous moles. "Retaining one's youthful appearance is much more than just getting injections of Botox and collagen. It involves a complete medical skin evaluation which should focus on both prevention and maintenance of healthy skin," Dr. Gin says.

Dr. Gin's training began at the Ivy League school of the University of Pennsylvania. She then moved to Los Angeles where she received her medical degree from the University of Southern California School of Medicine and completed her medical internship at UCLA Medical Center. She then returned to Pennsylvania to complete her dermatology residency at the University of Pittsburgh Medical Center.

Dr. Gin is also the founder of the Kalia Dermatology and Laser Center, located in Los Gatos in a beautiful 3,200-square-foot, state-of-the-art medical facility. The center also offers many spa amenities, such as facials, microdermabrasion, and physician-guided skin care products. To learn more about how to have healthier and younger-looking skin, contact Kalia Dermatology and Laser Center, or visit www.KaliaSkinCare.com.
